- and many more.....

You will have full access to create, delete or modify your email accounts via the direct admin control panel.

Our Server is located in an Australia Data Centre with major connections to Australia's internet backbone. Many cheaper companies used American datacenters but suffer from slow connection speeds.

### Option B – Domain Name

\$20 / 2yrs

As a Non-Profit organization you are entitled to register a .org.au domain name. Before you can register a domain name you must be a registered Australian Business. To prove this, you need to produce one of the following items, A) State Registered Business name number; or B) ABN Australian Business Number; or C) ACN Australian Company Number. Your chosen domain name must be included in your registered name. It can be an abbreviation, initials, or just part of the name.

When choosing a domain name you should consider it's practical use. It needs to be as short as possible and easy to spell. A technical or long domain name will be difficult to find with people making simple mistakes in spelling, or harder to advertise in large letters in a small advertisement.

Feel free to check the availability of your domain on our website. <http://domains.clubhost.com.au>

If you prefer you may select from others, eg. .com.au, .net.au, .asn.au (\$40/2ys) or .com, .org, .net (\$20/yr)

### Option C – Web Design

\$200 once only

Designing a complete website from scratch to include all the things you want can take a lot of time and likewise a lot of money. I've already spent this time creating a site for our own club [www.jamisonlac.org.au](http://www.jamisonlac.org.au) and would be happy to copy this design and mould it into your own colours and landmarks.

### Option D – Website Maintenance

\$120 / yr

Includes 1 change per week (attach newsletters, photo's, change email addresses, etc) as well as phone support. extra changes may be made within reason. You will still have your own full access to do anything you need to do.

**SPECIAL** : Signup for two years of Website Maintenance, We will include Option C – Web Design for free.
